Introduction to Auto Consignment of San Diego

We professionally detail the vehicle, take high quality pictures and market the vehicle on websites such as AutoTrader.com, CraigsList.com, AutoConsignmentSD.com and handle all of the phone calls, emails and test drives from prospective buyers.

We house the customer vehicles in a secure warehouse which keeps the cars in mint condition and provides a comfortable setting for buyers when viewing the vehicle, or the customer can continue to use their car and we will arrange the times and meeting places with prospective buyers. We also provide an escrow type of service between seller and buyer when there is a lien holder involved.
